

# WE CAN DO BETTER

This Passover, What Should Be Said about the Current Conflict Between Israelis and Palestinians:

**DAYENU**

To the mutual violence and hatred:

**DAYENU**

To the billions of dollars Israel spent on settlements and illegal outposts:

**DAYENU**

To the diversion of these dollars from the poor, the young, the sick, and from public health in order to maintain this occupation:

**DAYENU**

To the weakening of democracy and the rule of law that occupation and settlements have imposed on the State of Israel:

**DAYENU**

To the harm that Israel has inflicted upon its own values through the occupation of another people:

**DAYENU**

To the damage done to Israel's international reputation because of its continued occupation of the West Bank:

**DAYENU**

To the continued acts of vandalism by Jewish radical settlers known as "Price Tag," attacks that attack target everything and everyone, even the IDF:

**DAYENU**

To those who say Israel can do no wrong and those who say it does nothing right:

**DAYENU**

Israel is torn between a zealous vocal minority that strongly opposes ending the occupation and a majority that supports peace negotiations. For too many years, the settlers and their sympathizers have been allowed to veto peace.

**DAYENU!** Enough is enough! It is time to pursue peace, now.

As we face this global pandemic crisis, Peace Now in Israel and Americans for Peace Now in the United States wish you and your family health and strength.

And we invite you to visit us at [www.peacenow.org](http://www.peacenow.org) to learn more about how you can help the Israelis say "dayenu" to the settlements and liberate themselves from the burdens of occupation.
